ORDERING INFORMATION

How To Order

Orders may be placed by authorized Demco representatives or dealers. Verbal orders are not accepted.

Mail: Demco
4810 Forest Run Road
Madison, WI 53704

Fax purchase orders to: 800.730.8094

For Customer Service call: 800.747.7561

All orders must show quantity, catalog number, description, colors and customer purchase order number. Demco does not assume responsibility for errors on orders not submitted in writing.

Acknowledgment

Demco will issue a written Order Acknowledgment for each order accepted. Estimated ship dates are stated on Acknowledgments. All orders are considered correct as acknowledged. **Order changes may affect the estimated ship date. Customers must review acknowledgments promptly and notify Demco of any error.** Customer will receive a shop drawing of their TechnoLink order prior to production that MUST be approved by the customer in order to proceed.

Pricing

All prices are list and FOB factory. This catalog supersedes all prices previously quoted and is subject to change. Possession of this price list does not constitute an offer to sell.

ORDERING INFORMATION

Standard Finishes

All catalog pricing is based on the selection of standard TechnoLink finishes. Please review the TechnoLink Standard Color Cards for all Wood and Steel selections. For actual finish samples please contact Demco Customer Service.

WilsonArt Empire Mahogany 7122K-07

Please note: Because wood is a natural material, often with naturally-occurring variations in color, please be aware that texture and grain pattern may vary. If this is not acceptable to you we recommend that you choose a light stain or instead choose a woodgrain laminate.

Additional wood species may be available for an up-charge. Please contact Customer Service for special pricing.

ORDERING INFORMATION

Custom Color Up-charges

Custom color matching on Wood finishes may be subject to special pricing. Demco may request an actual finish sample to match before providing a firm quote on color up-charges. Demco will provide color samples of the custom color. **Samples must be approved in writing before order is accepted for a firm shipping date.** Please contact Customer Service for more information.

Order Changes

Order changes must always be confirmed to Demco in writing and are subject to the company's ability to conform. Demco will issue a new Order Acknowledgment for each change. Lead times may be adjusted by Demco if necessary to accommodate order changes.

Acknowledged orders will be changed without penalty prior to their production. Administrative and/or labor charges may be incurred by the customer depending upon the production stage of the order. Once final production has begun, no changes can be accepted.

Cancellation of Orders

By submitting an order to Demco, you are accepting responsibility for beginning the procurement of products wherein returns or cancellations of customized products are generally not allowed. You may not cancel an order, in whole or in part, without the written consent of Demco. No cancellation will be accepted by Demco except on terms that will fully indemnify and reimburse Demco against loss, including recovery of all costs incurred by Demco, and including indirect and overhead charges and profit.

Special Marking and Packaging

Custom crating, marking, palletizing or export packaging is subject to special pricing; and quotations must be made in advance of order placement. Contact Demco Customer Service to determine exact charges.

Shipment Terms

TechnoLink products ship FOB destination.

Payment Terms

You hereby give Demco permission to make all the reasonable inquiries into your credit history. Following such reviews, Demco will notify you of the payment terms for your orders, which will be one of the following:

- **Net 30 Days** If these terms apply to you, all amounts due under this contract shall be paid within 30 days following your receipt of an invoice.
- **25% Down, Net 30 Days** If these terms apply to you, you must pay 25% of the contract upon notice from Demco of the terms of payment, and the remaining amount due shall be paid within 30 days following the receipt of an invoice.
- **50% Down, Net 30 Days** If these terms apply to you, you must pay 50% of the contract upon notice from Demco of the terms of payment, and the remaining amount due shall be paid within 30 days following the receipt of an invoice.
- **100% Down or Payment Bond** If these terms apply to you, all amounts due under this contract shall be paid upon notice from Demco of the terms of payment. Alternatively, you may provide a payment bond or other security acceptable to Demco.

If you are required to make a down payment under the preceding payment terms, Demco will not process your order for Products under this contract until such down payment is received by Demco. You agree that you will not withhold payment of any amount due because of any other claims or set-off you may have against Demco.

ORDERING INFORMATION

Damaged Shipments

Demco's responsibility for shipment shall cease upon delivery to the carrier. Any claims for damages or loss occurring in shipment shall be made by Demco on your behalf directly to the carrier. All other claims for damages, defects, loss, shortages or incorrect Products must be made within fourteen (14) days after receipt of the Products, unless otherwise agreed by the parties in writing. Your failure to make any claim within the specified time period will result in the unconditional waiver of that claim.

Demco reserves the right to accept or reject any claim in whole or in part. Demco shall not be responsible for any defects caused by your willful or negligent acts, incorrect storage or installation of the Products, or normal wear and tear. Any claims based on the warranty shall be made within the period prescribed by the warranty.

Taxes

Any manufacturer's sales or excise tax, or any other tax or government charge now or hereafter levied upon the products, sales or use or shipment of goods shall, at the Company's option, be charged to the customer.

Warranty

Demco warrants to the original purchaser only will be free from defects in material and workmanship, given normal use, for a period of five (5) years from the date of the initial delivery on the terms and conditions set forth below.

If such a defect is found to exist during the warranty period, the original purchaser's sole remedy will be the repair or replacement, whichever Demco selects, of the product at no cost to the purchaser. All replaced products or product parts shall become the property of Demco.

The purchaser shall promptly notify Demco of any defect. No product will be accepted for warranty work without prior written approval of Demco's authorized personnel.

Defects resulting from abuse, misuse, improper storage, alteration, unauthorized repair or failure to follow published instructions for use or assembly are not covered by this warranty.

No corporation, firm, or individual is authorized to incur or assume for Demco any liability in connection with the sale, installation, or use of products except as stated in this warranty.

There are no other warranties relating to products expressed or implied, including any warranties of merchantability or fitness for a particular purpose, and in no event shall Demco be liable for incidental or consequential damages.

This warranty applies only to standard products that fall under the TechnoLink product line.

STATIONARY REFERENCE DESKS

GENERAL SPECIFICATIONS

The TechnoLink Static Desk System is a versatile, modular desking system that offers adjustable height and/or fixed height work surfaces, a variety of open and closed storage options, concealed cable management and fully compliant ADA access points.

CONSTRUCTION & MATERIALS

Work Surfaces

The TechnoLink work surfaces are available in two standard materials: Laminate or Corian. Both surface materials will be 30" D and 1½" thick. Laminate work surfaces will receive a ½"D solid wood edging. All work surfaces receive grommets as required.

Leg Frame

Each leg frame is constructed from 14 gauge steel and has an overall dimension of a 28" deep x 22⁵/₈" high x 4" wide. Each leg frame is designed to accept two veneer or laminate infill panels that sit fully within the surrounding frame. The leg frames also accept one electrically height adjustable or fixed height leg column and two adjustable glides. Each leg column is held in place with a laser cut top plate that is mounted to the top of the leg frame. Each fully assembled leg frame can in turn accept 2 lower front panels. Fixed height work surfaces are available in 29" high, 32" high or 39" high as standard.

Height Adjustability

If height adjustability is required, the TechnoLink desk utilizes electrically height adjustable legs and supporting electronic systems, which enable TechnoLink work surfaces to be raised and lowered at the touch of a button.

Each electrically height adjustable leg produces 700N of thrust per column. Up to four (4) legs can be raised and lowered simultaneously to raise one continuous work surface. Typical height adjustable work surface range is 29"H to 42"H. Height adjustable legs are controlled by a central control box.

The control box is a separate unit located on the underside of work surface. Each control box can accept up to four height adjustable legs and one control pad. The control box is a plug in system (not hard wire) and in turn provides power to two, three or four legs. The control pad is located on the staff side of the desk and contains two (2) buttons which allow the user to raise and lower the work surface as required, to create a more ergonomically correct working environment.

Lower Front Panel

The lower front panel is 19⁵/₈" high x 6" deep and is available in veneer as standard. The top of each lower front panel contains an internally facing 6" high x 3" deep cable management channel and one ¾" deep open channel to accept the upper front panel. Each end of the lower front panel has a cable management outlet to allow for continuous cable management through all desk modules.

Upper Front Panel

The upper front panel is constructed from perforated steel as standard. The panel is attached to the underside of the work surface above and is designed to fit into the open channel in the lower front panel. Dimensions of this upper front panel are such as to allow the panel to rise and fall within the lower front panel freely when specified with an electrically height adjustable leg set.

STATIONARY REFERENCE DESKS

CONSTRUCTION & MATERIALS

Pedestals and Storage

All mobile pedestals, mobile storage cabinets and storage drawers (both 3" or 6" high) are lockable.

Corner Units

Corner units must be installed between two desks as these modules do not include leg frames. As standard, the front panels on all corner units will be veneer.

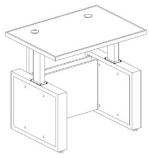

To view examples of sample reference desk configuration, see the Sample Configurations sections in this Specification Guide.

- QNTY 2 – P/N 135 82060 - 2 Drawer Pedestal – Laminate Top

CABINET STORAGE

36" wide cabinet has 1 adjustable shelf. 42" and 48" have 2 adjustable shelves and 1 central vertical divider.
 36" wide cabinet (P/N 135 94530) , 42" wide cabinet (P/N 135 94560), 48" wide cabinet (P/N 135 82190).

GENERAL SPECIFICATIONS

The TechnoLink Mobile Desk System is a versatile, modular desking system that offers adjustable height and/or fixed height work surfaces, a variety of open and closed storage options, concealed cable management and fully compliant ADA access points.

CONSTRUCTION & MATERIALS

Work Surfaces

The TechnoLink work surfaces are available in two standard materials: Laminate or Corian. Both surface materials will be 30"D and 1½" thick. Laminate work surfaces will receive a ½"D solid wood edging. All work surfaces receive grommets as required.

Height Adjustability

If height adjustability is required, the TechnoLink desk utilizes electrically height adjustable legs and supporting electronic systems, which enable TechnoLink work surfaces to be raised and lowered at the touch of a button.

Each electrically height adjustable leg produces 700N of thrust per column. Typical height adjustable work surface range is 29"H to 42"H. Height adjustable legs are controlled by a central control box.

The control box is a separate unit located on the underside of work surface. Each control box can accept up to four height adjustable legs and one control pad. The control box is a plug in system (not hard wire) and in turn provides power to two, three or four legs. The control pad is located on the staff side of the desk and contains 2 buttons which allow the user to raise and lower the work surface as required, to create a more ergonomically correct working environment.

Lower Base Module

The lower base module is 19" high and are available in either a veneer as standard. The top of each base is finished with a ¾" thick Colorich surface, resulting in an overall combined height of 19¾".

Each desk includes a 3" x 3" internally facing cable management channel and a ¾" top facing slot to accept the upper front panel. Each lower base panel includes as standard two grommets (2" diameter) mounted on the exterior vertical side walls that allow for continuous cable management through the unit.

Upper Front Panel

The upper front panel is constructed from perforated steel. The panel is attached to the underside of the work surface above, and is designed to locate into the open channel in the lower base panel. Dimensions of this upper front panel are such as to allow the panel to rise and fall within the lower front panel freely when specified with an electrically height adjustable leg set.

Casters

Each desk will be supported by 3" diameter casters. All casters will be lockable. Caster color will be gray. Weight loading per caster is 165 lbs.

To view examples of sample mobile reference desk configurations, see the Sample Configurations section.

GENERAL SPECIFICATIONS

TechnoLink Media Tables allow multiple users in a group to share ideas and information electronically on one larger monitor. Available in two (2) size table tops, up to six (6) users can collaborate together using a media sharing software that is easily plugged into each user's individual device.

CONSTRUCTION & MATERIALS

Table tops are 29"H x 55"W and can be either 80"D or 66"D depending on preference and available space. Surfaces are scratch resistant 1.5" thick high pressure laminate (HPL) with PVC edge band. They are rounded at one end and fastened to the vertical back panel at the other.

Vertical back panel is constructed from 2 panels surfaced with HPL and then captured within a solid maple frame. The left and right hand sides of back panel accept two frosted acrylic inserts.

Each TechnoLink Media Table is suited to accommodate a 42" diagonal monitor (not included) and will accept 2-person or 4-person device sharing software/hardware, sold separately. Collaborative technology requires an HDMI connection between the device and TV. Media sharing can be switched among connected users by the push of a button.
