Integrating Service & Technology for Today's Library

Libraries are evolving right alongside their communities, offering more technology, new programs and services than ever. It's time furniture evolved too. Say hello to TechnoLink — a line developed through close collaboration with librarians, and designed to incorporate technology and promote collaboration. Functional and attractive, this is furniture that adapts to your library's unique space and needs.

Seattle Public Library
Seattle, WA

With TechnoLink, Demco's exclusive collection of service desks, tables and computer workstations, you gain customizable furniture that is designed for your library, fosters collaboration, flawlessly integrates technology and helps you best serve customers.

Wendt Commons Library, University of Wisconsin-Madison, Madison, WI

Desks can be designed to fit around existing structural elements, adding dimension and separation to the space.

Create a Focal Point: Modular Service Desks

TechnoLink Modular Service Desks capture attention for all the right reasons. Dynamic configurations as well as fixed or adjustable counter areas ensure everyone is well served. Staff will also love the wide range of available storage components.

Helen C. White Library, University of Wisconsin-Madison, Madison, WI

Fixed-height and adjustable service counters are interspersed with customer convenience shelves.

Available Features

- Sturdy steel frame
- Height-adjustable and fixed-height units
- Layouts to accommodate existing structural elements — columns, raised floors, ramps, etc.
- Numerous storage options

Helen C. White Library, University of Wisconsin-Madison, Madison, WI

Layouts are designed to meet the unique needs of the space.

The Convenience of Mobility

People are on the move, why not furniture? TechnoLink's mobile service desks go where they are needed most, neatly transporting all of your equipment and allowing for rapid connectivity in new locations. TechnoLink furniture's flexible features — height, wire management and size — make them great anywhere!

Perfect match — Use coordinating pieces, like this printer cabinet, for a pleasing, cohesive look.

Integrate storage options to meet your needs.

Available Features

- Work surface sizes, shapes & materials designed to meet your library's needs & aesthetics
- Work surfaces available in laminate, Marmoleum®, Corian® or other materials
- Many standard wood finishes & powder-coat paint colors available
- Optional add-on work surfaces, signage & monitor arms
- Wire management channels are hidden out of sight
- Fixed- or adjustable-height work surfaces
- 3" dia. dual-wheel, locking casters

Small and mighty — Smaller units still provide ample storage, move easily and offer variable-height work surfaces. Use them as mini self-service points throughout your library.

Integrated storage and varied work surface heights accommodate different activities. Create tailored solutions to meet your library's needs.

Accommodating special equipment needs, such as CPU units, is easily achieved through customized designs.

Technology and furniture unite in this TechnoLink Media Table. Up to 6 people can gather here to effectively collaborate, brainstorm or problem solve. The back can do double duty as a writable laminate or markerboard surface.

Available Features

- Your choice of wood finish, paint color and laminate surface
- Compatible with 40-42" monitors, depending on table style selected
- Media sharing technology connects 2, 4 or 6 devices

Share content from up to 6 devices.

Start Here!

Picking out materials, measuring precisely and making furniture decisions can be overwhelming, but they shouldn't be! Demco gives you 1:1 attention every step of the way with stunning results.

- Design/Layout • Product Selection
- Project Management • Installation

Call 800.747.7561 or
email design@demcointeriors.com
to discuss your library needs.

An optional writable surface on the back offers greater versatility.

The Building Blocks for Functional Technology Furniture

Every cord in its place. Everyone getting the help they need. Options for every space. TechnoLink is your gateway to a beautifully functional library.
